Projects

-
- ***Spotify Clone [React | Tailwind CSS]***
Developed a responsive music streaming web application inspired by Spotify's user interface. Implemented dynamic routing, reusable UI components, and state management to enable features such as song playback, playlists, and user interactions. Employed Tailwind CSS for a modern, mobile-friendly design and optimized user experience.
 - ***Restaurant Management System [Php \ my sql \Laravel]***
Developed a web-based application to streamline restaurant operations, including table booking, menu management, and order tracking. Implemented MVC architecture with Laravel for efficient backend processing and MySQL for secure data storage. Designed an intuitive interface for admins and staff to manage reservations and menu updates, improving overall workflow and customer experience.
